MIA – unraveling the Invisible Water World

ASPEA - Associação Portuguesa de Educação Ambiental
revelando o mundo invisível da água

PT02_2ºRPT_0028 MIA – unraveling the Invisible Water World
Project funded by EEA Grants (with management through DGPM);

Coordination of the project by ASPEA (Associação Portuguesa de Educação Ambiental);

Partners: OMA (Oficina de Música de Aveiro), PANTOPEIA, CINANIMA, Casa da Animação, Agrupamento de Escolas da Murtosa, Universidade de Aveiro, Universidade dos Açores.

MIA is a science communication / environmental education project that mixes science with arts in order to talk about the aquatic microscopic organisms and their importance in the ecosystem, making the link to the principles of Ocean Literacy.
PROJECT OBJECTIVES

- Increase the knowledge about the oceans, by connecting to the principles of Ocean Literacy;

- Explore the microscopic water world, particularly phytoplankton, within school curricula;

- Integration of sciences and arts for the message transfer;

- Promote transdisciplinarity and team work;

- Enhance artistic creation and the development of communication skills through arts and ICT;

- Develop educational materials.
