PT02_RPS_0003 Bridges Between School and Blue Science
Goal:

Foster Ocean Literacy among Portuguese high school students through their engagement in real Ocean related investigations.
1st stage – Beginning of the research work (in the classroom) through the implementation of teaching strategies of inquiry nature.

2nd stage – Active collaboration of the students in a scientific research at an Ocean Science institution.

3rd stage – Completion of research work (in the classroom) that culminates in a presentation at the National Ocean Science Congress for high school students.
Schools:

• ES/EB Dr. Jorge Augusto Correia (Tavira) – 2 classes
• Escola Secundária de Loulé – 1 class
• Colégio Pedro Arrupe (Lisboa) – 1 class
• Colégio Euro-Atlântico (Matosinhos) – 1 class
• Escola Secundária Anselmo de Andrade (Almada) – 2 classes
• Escola Secundária Camilo de Castelo Branco (Carnaxide) – 3 classes

Research Institutions:

• Instituto Português do Mar e da Atmosfera (Algés) – 5 research groups
• Instituto Português do Mar e da Atmosfera (Tavira) – 2 research groups
• Instituto Português do Mar e da Atmosfera (Olhão) – 1 research group
• Instituto Português do Mar e da Atmosfera (Matosinhos) – 1 research group
• Estrutura de Missão para a Extensão da Plataforma Continental (Paço de Arcos) – 1 research group

Students: 345
